Lab Report Summary Sheet - Experiment E

Chem 113A

Section#: ___________ Name: _______________________

Experiment Type: Preparative

Limiting Reagent: unknown alcohol

Desired Product: _______________________

Theoretical Yield (assuming you begin with 150 mmol 3-methyl-1-butanol):

________________ g

Fill out the above and present to instructor along with lab notebook.

PRELIMINARY APPROVAL (instructor signature):

______________________________________________________________________________

Fill in the following before submitting report:

UNKNOWN NUMBER: __________

Product Yield: ___________ g (amount submitted with report)

Product Yield: ___________%

Boiling point: ___________ °C

STRUCTURE OF UNKNOWN:
